# Batman Odulio

Senior IT Product Manager at Procter & Gamble

Metro Manila

## Summary

Experienced in Digital Product Management, Data Management, Project Management, and IT Operations. Recognized for agility, a growth mindset, and strong leadership in collaborating with diverse global teams and stakeholders. and yes, I am Batman. Can you guess my brother's name?

## Experience

Procter & Gamble

5 years 1 month

Senior Product Manager - Global Manufacturing IWS

July 2026 - Present (1 month)

Driving digital product strategy for Global Manufacturing IWS, integrating people, process, and technology to deliver measurable operational excellence.

Senior IT Product Manager, Physical Distribution - Warehouse  
Management Systems

July 2021 - July 2026 (5 years 1 month)

Manila

- Spearheaded the product management and delivery of a Global Warehouse solution that resulted in \$MM USD cost savings and productivity improvements, achieving a 200% growth in product adoption, from 30 warehouse sites to over 100 fulfillment and distribution centers globally, covering all P&G markets.
- Led the integration of the product with over 50 consuming applications for automation, reporting, and AI, which is critical for unleashing the maximum potential of warehousing data by enabling data-driven decision-making and supporting Operational Excellence in Global Warehousing.
- Managed the Total Cost of Ownership (TCO) of the product while leveraging company-wide tools for financial management and portfolio management. Successfully lowered product implementation costs by 70%, delivering \$MM USD in annual cost savings.

- Optimized product implementation delivery by 50%, reducing installation time from 4 weeks to 2 weeks, which increased global product adoption by leveraging Azure CI/CD Pipelines and GitHub.
- Ensured 100% compliance with Technical Security Standard, Cloud Security Standard, and Vulnerability Protection Policies, rolling out mitigations across 100+ sites with zero negative impact on operations. Experienced in Issue/Exception Management, Business Impact Analysis, and IT Audit to strengthen the commitment to compliance and security.
- Served as a Subject Matter Expert of the product for enterprise-wide initiatives and service line priorities.
- Mentored a cross-functional team of 30+ external and vendor resources, fostering a collaborative environment to execute business-critical initiatives.

### Cloud Solution Architect

July 2021 - July 2022 (1 year 1 month)

Manila

- Championed the establishment of Warehouse architectural standards in alignment with enterprise frameworks (e.g., TOGAF, company compliance), driving significant improvements in compliance, performance and maintainability across 20+ warehousing applications while fostering a culture of excellence and innovation within the organization.
- Architected and optimized Azure-based solutions, including dynamic gateways, failover mechanisms, and robust data pipelines, streamlining global supply chain operations and delivering cost-effective solutions that elevated data flow efficiency and reduced operational costs.
- Engineered the seamless integration of on-premise Warehouse Management Systems with Microsoft Azure Cloud, achieving real-time data synchronization that significantly enhanced operational excellence, scalability, and security.
- Acted as Platform Manager, accountable to 200+ Azure resource groups and 1,000+ resources, including 400+ databases, for a global footprint adoption to 90+ sites. This infrastructure achieved 100% compliance with standards implemented by the Cloud and Network Team.

### Chevron

2 years 8 months

Software Engineer, Supply Chain

November 2020 - June 2021 (8 months)

Philippines

- Provided Expert-Level Support for advanced application configuration and systems knowledge, playing a crucial role in incident investigation and break-

fix resolution for critical issues. These efforts consistently benefited business units, ensuring the timely completion of deliverables.

- Managed application services to ensure continuous deployment, focusing on improving availability, efficiency, and enhancements. Collaborated closely with Vendors, Solution Architects, and application users on a global scale. This collaborative approach resulted in the successful implementation of enhancements and fixes, significantly increasing the efficiency and effectiveness of our business applications.

### Software Engineer, Drilling and Completions

June 2019 - January 2021 (1 year 8 months)

- Orchestrated the end-to-end API product lifecycle, encompassing planning, development, operations, and the robust implementation of Azure-based Continuous Integration and Continuous Deployment (CI/CD) using Azure DevOps, App Services, Key Vaults, Ansible, and Azure Application Insights.
- Led API Quality Assurance, ensuring operational excellence through automated, load, performance, smoke, and unit testing protocols.
- Directed Scrum ceremonies and practices, driving agile team efficiency and enabling the delivery of top-tier services to the business. Developed Data Visualization solutions using Application Insights and PowerBI to monitor application consumption and status to support operational excellence.

### Software Engineer Intern

November 2018 - May 2019 (7 months)

Ayala, Makati Philippines

- Spearheaded the development of robust Data Visualization solutions with Azure Application Insights and PowerBI, enabling real-time monitoring of application consumption and status. These reports provided the leadership team with comprehensive insights, empowering data-driven decisions that fueled operational excellence and strategic initiatives.

### National University Philippines

#### Student Council President

January 2018 - January 2019 (1 year 1 month)

College of Computing and Information Technologies Student Council

College President role involved representing the organization in all university activities and overseeing key events, including Software Festivals, Data Privacy Seminars, and charitable Donation Drives. These events played a crucial role in enriching the student experience and contributing significantly to community welfare and our college's mission and vision.
